

Game Rules

Grand Patron Change&Chance is a 5-reel video slot with additional horizontal top and bottom reels, Wild symbols, special game features and Bonus game.

The game is played with 20 paylines at different bet values.

Wins are paid out when matching symbols appear on paylines in succession from the leftmost reel to right.

Winning combinations pay out according to the game payable. Values displayed in the payable are dynamic and display the pays for the currently selected bet.

Only the highest winning combination per payline can be paid.

Simultaneous wins on different paylines are added together for the total winning amount.

Features

Wild

The 5 Wild symbols form a winning line.

Wild symbols substitute for all paying symbols to create winning combinations.

Wild symbols appear on all reels.

Wild symbols substitute for the highest paying combination on a payline according to the payable.

If a payable symbol matches with Wild symbol on top or bottom reels, the matched symbol becomes Wild on reels.

Scatter

Scatter symbols appear only in the Main Game and also only on additional horizontal reels.

If Scatter symbols land in the top and bottom reels in the Main Game the Bonus game is awarded.

Spawner

When two payable symbols appear on the top and bottom reels, three matched symbols are added to a random regular reel position.

If two Wild symbols appear on the top and bottom reels, three Wild symbols are added to a random regular reel position.

Bomb

Bomb symbol triggers the Bombastic feature for any matched symbol on the top/bottom reels or the whole screen explodes.

After a spin ends, all matched symbols on regular reels are exploded. Remaining symbols fall down. New symbols fall from the top and winning combinations are checked.

Two bombs on additional reels explode all symbols on the reels and trigger respin.

Prison

This feature is triggered by a prison symbol on additional reels.

If on additional reels the prison symbol and the payable symbol appear - matched symbols become arrested on the reels. Respin starts, but arrested symbols remain. After spin ends, arrested lifts and winning combinations are checked.

If there are two prison symbols on the top and bottom reels, all symbols on reels are arrested. A random payable symbol fills the whole screen and the next win is checked.

Win multipliers

Trigger for this feature is the multiplier symbol on the additional horizontal reels.

If a multiplier appears with a payable symbol, all winning combinations with this symbol on current spin will be multiplied.

If two multipliers match on the top and bottom reels, there is a win for a spin multiplied on multiplication of these multipliers.

Bonus game

The Bonus game starts when Scatter symbols appear on the top and bottom horizontal reels.

The number of Free Spins in the Bonus game is 12.

It is possible to gain 3 extra Free Spins, if during the Bonus game the Prison feature is triggered. During the bonus game, the combination of Prison + Prison or Prison + Symbol can occur only once throughout the bonus game (only one mechanic associated with the Prison symbol can pay out).

In the bonus game, top and bottom horizontal reels are unlocked. During the Bonus game, on each spin triggers all equally matched combinations on additional reels.

If there is a win on the result which activates the Bonus game, this win is added to the winnings accumulated during the Bonus game.

Buy Bonus

Depending on license requirements, this feature may not be available.

There are three bonus game options available for purchase.

The first Buy Bonus option guarantees that Scatters appear on the top and bottom reels.

In the second option of the Buy Bonus game, the combination Prison+Symbol is guaranteed to appear starting from the first spin of the bonus game.

In the third type of the Buy Bonus game, the combination Prison+Prison is guaranteed to appear starting from the first spin of the bonus game.

In the third Buy Bonus game option, the possibility of combinations related to the Bomb mechanic is excluded.

The Buy Bonus feature is disabled if Chance 2x feature is active.

Chance 2x feature

There is a possibility to buy the Chance 2x feature in the game. It increases the bet and gives players more chances to play bonus games. The Chance 2x feature is disabled if the Buy Bonus feature is active.
