BGAMING

PUBLISHING

We partner with ambitious iGaming studios to turn strong games into scalable success. With benchmarks from our 250+ proprietary titles, we forecast GGR before launch and validate performance at 30, 60, and 90 days, giving each publishing game a clear role and measurable targets.

HOW IT WORKS

Plug in
Your game is integrated into BGaming's RGS and infrastructure, with our RNG supporting the technical setup.

Keep ownership
Your studio keeps ownership of the game and its IP throughout the partnership.

Go to market
We handle certification and distribution across MGA and other available regulated markets.

Set the terms
We agree on exclusivity and commercial terms based on the game and target markets.

Grow together
We work on a revenue-share model, so our success is tied to your game's performance.

CHOOSE YOUR PUBLISHING TRACK

LAUNCH TRACK

For studios bringing their first games to market

- Hands-on support from integration to launch
- Certification and compliance across key markets
- Clear data on early game performance
- Go-to-market guidance and launch planning

SCALE TRACK

For studios with an established portfolio and market experience

- Comprehensive portfolio strategy for every title
- Expanded market distribution for proven games
- Performance reporting across your game portfolio
- Low-touch publishing with flexible, tailored support

STUDIOS WE SUPPORT

7TRINGS GAMING · CREAM TEAM · PERFECT POSITION · PLAYMORPH · GOLDEN GOAT GAMING · Poggi Play · NOWNOW GAMING · CLAW BUSTER · playzia · ELECTRIC ELEPHANT · BULLSHARK
